PRICE LIST

Fall 1920

*Established 1875
Over 300 acres*

*Largest Nursery
in Indiana*

QUALITY STOCK AT REASONABLE PRICES.

Many varieties of nursery stock are scarce. Order early and avoid disappointment.

We have growing in our nurseries many varieties and sizes of trees and plants not mentioned in our catalog, especially suitable for planting on large estates, in parks, cemeteries, etc. We will be pleased to quote prices to any one desiring different sizes, or stock in larger quantities than offered herein.

INSPECTION.

Certificate of State Entomologist is attached to every shipment.

PRICES AND TERMS

are subject to change without notice. Unsettled business conditions that affect the cost of materials which we are obliged to buy for operating our business, and also changes in wage rates, make this necessary. All sales and prices subject to terms printed in this list.

NOTICE.

*Order varieties in price-list only. Consult catalog for descriptions.
Several varieties listed in our catalog cannot be furnished this season.*

Substitution

We have found many of our customers desire us to fill their order complete by using our good judgment in selecting varieties for them in case we were short of varieties ordered. Many times we can better the selection, but if you do not wish us to use our judgment in selecting varieties to take the place of those that may be exhausted, kindly mark on the face of your order, "*No Substitution*," and we will gladly refund balance of your remittance.

Terms

CASH WITH ORDER—Except to persons who satisfy us as to their financial responsibility, when accounts are due when bills are rendered, and prompt payments are expected.

STOCK SELECTED by customers at the nurseries will be charged for according to the value of the trees or plants chosen.

Guarantees

In growing and furnishing all nursery stock, we use the greatest care to have it true to name, and will replace any that may prove untrue, free of charge, or refund purchase price. We shall not be liable for more than the purchase price. Every purchase from us is made on these terms.

GUARANTEE and CLAIMS—All goods are guaranteed true to name, up to grade, full count, and in good condition when delivered. Claims must be made within five days after delivery to customer's delivery point to receive consideration.

We do not guarantee stock to grow, or results in any way. There are so many causes for failure over which we have no control that we can assume no responsibility after stock is delivered in good order. Poor soil, unfavorable weather, ignorant or careless culture—all contribute to failure and all beyond our control.

A catalog as extensive as this must of necessity offer some plants of difficult culture, and, when these are ordered, we presume the people ordering them have the knowledge needed for their culture. Successful results require knowledge, enthusiasm and perseverance, and these we can not supply, but we shall be glad to make selections from the hardier class of plants for the people who wish them.

Prices

Prices are at the each, 10, 100 and 1,000 rates. Less than ten trees of a class will be charged at each rate. Less than fifty trees of a class at ten rate. Fifty or more trees of a class at one hundred rate. Five hundred trees or more at the thousand rate. The classes in this list are as follows: Deciduous Trees, Ornamental Shrubs, Evergreens, Roses, Hardy Vines, Hardy Perennial Plants, Hardy Ornamental Grasses, Apples, Peaches, Pears, Plums, Apricots, Cherries, Quinces, Nut Trees, Grapes, Raspberries, Blackberries, Dewberries, Gooseberries, Strawberries, Currants, Asparagus and Rhubarb.

Ornamental Department

DECIDUOUS TREES

Less than ten at each price. Ten of a kind or ten different kinds at ten rate. Fifty of a kind or fifty of not less than five of a kind at hundred rate.

We have many large trees 15 to 30 feet high that measure at base of tree 3 to 12 inches in diameter. Special prices on these will be made when trees are selected at nursery.

CONIFEROUS EVERGREENS

We trim our evergreens each year. It takes more time to get a tree by using this method, since we cut off more or less growth each season, but in the end we have a much more desirable tree.

All dug with ball and burlaped—the only safe way to handle them.

	Each	10	100
Linneaus (the best).....	\$0 20	\$1 50	\$10 00

At the present date a careful investigation shows that there is only 65 per cent. of nursery stock in the United States that there was a year ago. Last year the shortage was almost 50 per cent. of normal conditions. Beware of cheap, inferior goods. Many poor trees and plants will be offered at prices slightly under first-class stock. Only first-class stock is offered in this list.
